

# Instructions for optimising Zoom sound when using music tracks or playing an instrument in a teaching session.

**1 Open Zoom App**  
**2 Go to settings**

**1. Click on Audio**

**2. Click on Advanced**

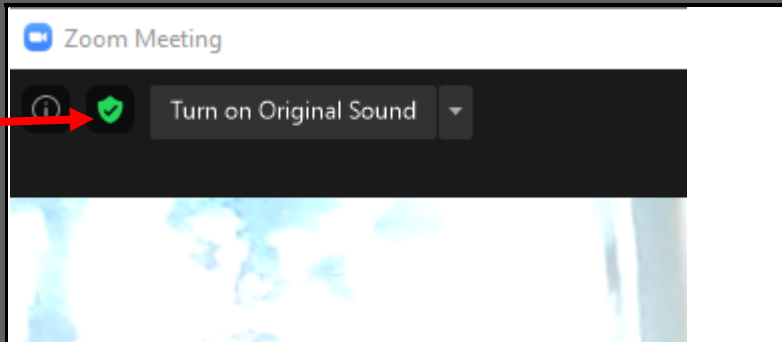

Ensure **Show in-meeting option to 'Enable Original Sound' from microphone** is checked

The image displays three sequential screenshots of the Zoom application interface. The first screenshot shows the Zoom home screen with a red arrow pointing to the settings gear icon in the top right corner. The second screenshot shows the 'Settings' menu with 'Audio' selected, and a red arrow pointing to the 'Advanced' button at the bottom right. The third screenshot shows the 'Advanced' audio settings page with a red arrow pointing to the checked checkbox for 'Show in-meeting option to "Enable Original Sound" from microphone'.

Click the **X** in the top right hand corner to exit this window

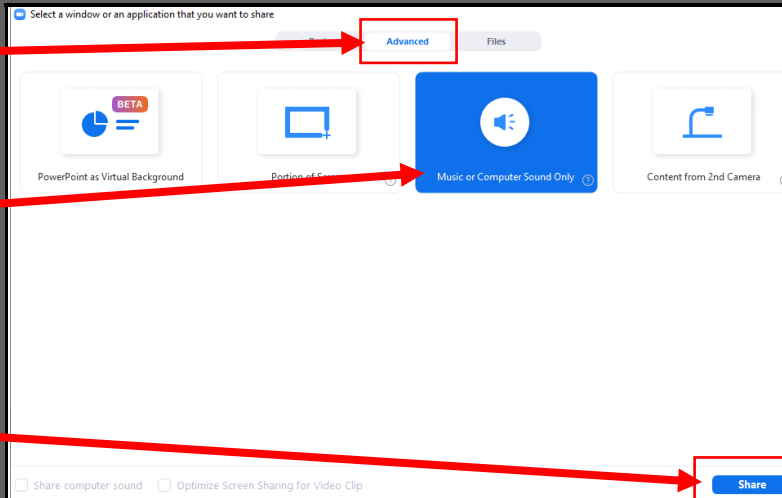

You will see 'Turn on original Sound' in the top left hand side of your screen

Click on **Share Screen**

1. You will be taken to the Basic window. Click on **Advanced**

2. Click in **Music of computer Sound only**

3. Click **Share**

You will see '**You are sharing computer sound**' at the top of your screen.

Use the **volume control** in whatever audio application you are using (Grove Music/Sound cloud etc) to increase/decrease the sound of your backing track.
